Final Words from Brunetto Chiarelli.

Note, as usual each presenter can allow the last 5 minutes of the allotted time for questions. In addition, each issue or section has had a "General Discussion" added period to the Health Breaks, to meet the wishes of most members for additional time for discussion.

Note that you need to check carefully your titles, names, and country you represent so that corrections can be made for the next version of the program. We also need to know who will speak, in case of double authors so that these names can be underlined in the program.

Finally, as usual, registration is paid the first evening of the regular meeting, in cash, in order to allow us to meet our obligations. The Registration Fee is €150 which includes the opening reception/dinner and health breaks. Receipts will be issued.
